TO C, Professional Services

ATTN: MEDEO-CPS

1. Request approval to construct a scientific exhibit for display at the American Physical Therapy Association's Annual Conference to be held in New Orleans 27 June-2 July 1976.

2. Proposed title of the exhibit: A Look Through The Above Knee Prosthesis

3. Description of exhibit:

This slide-sound presentation depicts a prosthetic checkout using roentgenograms and the step-by-step procedures utilized to evaluate the socket fit and prosthetic alignment of the above knee prosthesis. This exhibit demonstrates the value of radiographic evaluation as an adjunct to the conventional checkout.

4. Suggested overall size of exhibit is approximately 6' x 9'. See rough sketch enclosed.

5. The technical advisor responsible for supplying material, coordinating details and monitoring exhibit at the meeting is Cornelius J. Scanlon, CPT, AMSC, Physical Therapy Section.
